## WILDFIRE ACTION SYMPOSIUM

Learn what we should do on our own and as a community to reduce wildfire risks

FEBRUARY 1, TIMBER COVE LODGE / FEBRUARY 2, GRAZING FIELD DAY

This symposium is the first step toward a series of smaller gatherings and collaborations as we move toward collectively creating a fire-resilient landscape. Please join us next weekend and let's get started!

**REGISTER NOW**

**From Talk to Action**

The purpose of the workshop is to explore how we might use the critical tools of defensible space, mechanical fuels removal, grazing and prescribed fire to help save lives, property and our environment. Presentations will address what each of these treatment options can offer to help us reduce risk. Discussion will focus on tasks we need to accomplish to move forward.
