**Community Grazing Discussion with
Dr. Stephanie Larson**

*Director of University of California Cooperative
Extension, Sonoma County and Livestock Range
Management Advisor*

**Tuesday, September 25, 2:30 p.m.
Gualala Ranch Big Barn
1300 Big Barn Rd., Cazadero**

You are invited to join us to join us for a discussion on the benefits of using grazing animals as tools to manage local landscapes

We are privileged to host Dr. Larson and invite you note what topics you are most interested in so that we can arrange the session accordingly. Some topics to consider:

- Learning more about rangeland management and grazing services.
- Learning more about what funding activities might be available.
- Working collaboratively together as a community to manage our landscapes.
- Thinking about getting sheep, and want to learn more.
- Have sheep, and want to expand how you use them.
- Want to manage your livestock and rangeland more effectively.
- Learning about pasture seeding for rangeland health.
- Learning about fiber production.
-

Fort Ross VFD Community Wildfire Protection Plan Meeting (CWPP)

Sunday, Sept. 30, 1-4 pm

Black Mountain Preserve/PPI

23125 Ft. Ross Rd., Dining hall (Parking is limited, please carpool with your neighbors) Snacks to share are welcome

Bring your ideas and energy as we work together to devise CWPP projects that will reduce our community fire risks. Arriving at consensus on these complicated issues takes time, information, and careful discussion. Your participation will create a plan that reflects our community's unique concerns and needs. Please join us in the process.

A CWPP is a collaboratively developed plan that assesses our wildfire risks and produces a prioritized list of projects and activities that will reduce wildfire risks to people, property, and the environment. The process brings together concerned residents, firefighters, agencies, and community groups with an interest in protecting community values. The result will be a comprehensive plan to help focus our efforts on fuels reduction and community safety. Projects listed in a CWPP are given priority in many wildfire prevention grant programs.

This project is funded by a grant from CAL FIRE.

Questions about the meeting? Contact Mary DeDanan at < dedanan@mcn.org >.
